废有机溶剂  
循环再利用

树脂新材料

废活性炭再生

危废焚烧

环保服务管家

危险品运输

### 公司简介

巨联环保始建于2004年，是一家专注于工业废弃物资源化利用和无害化处置的高新技术企业，现辖苏州巨联环保有限公司、吉安巨联环保科技有限公司、江西巨联新材料有限公司、苏州欧特环境发展有限公司、苏州巨联运输有限公司。

巨联致力于资源的可持续管理，以废有机溶剂回收为核心，通过对行业主要污染物的分析，设计并实施循环式改造，促进企业之间、产业之间的物质交换和服务共享，拓展产业共生体系，建立起相互带动、互惠互利、多产业复合的特色生态链。

巨联目前在江苏、江西等地建成危险废物集中处置利用中心，业务涵盖废有机溶剂回收、废活性炭再生、危废焚烧、危险品运输、树脂新材料，为工业企业及工业园区提供废弃物管理和回收再利用解决方案，支持企业及所在社区的可持续发展。

### Company Overview

Founded in 2004, Julian environmental protection is a high-tech enterprise focusing on the resource utilization and harmless disposal of industrial waste. It now governs Suzhou Julian environmental protection Co, Ltd, Jian Julian Environmental Protection Technology Co., Ltd. and Jiangxi Julian new materials Co., Ltd. Suzhou Oute Environmental Development Co., LTD Suzhou Julian Transportation Co., Ltd.

Julian is committed to the sustainable management of resources. With the recovery of waste organic solvents as the core, through the analysis of major pollutants in the industry, it designs and implements circular transformation, promotes material exchange and service sharing among enterprises and industries, expands the industrial symbiosis system, and establishes a characteristic ecological chain of mutual drive, mutual benefit and multi industry compound. At present, Julian has built a centralized hazardous waste disposal and Utilization Center in Jiangsu, Jiangxi and other places. Its business covers waste organic solvent recovery, waste activated carbon regeneration, hazardous waste incineration, dangerous goods transportation and new resin materials. It provides waste management and recycling solutions for industrial enterprises and industrial parks, and supports the sustainable development of enterprises and their communities.

# Industrial Layout 产业布局

## 巨联（苏州）产业园

在苏州，巨联环保推动废气、废液、固废协同治理方案在工业园区污染治理上的实践，让企业的环保投资由成本模式向收益模式转型。

### Julian (Suzhou) Industrial Park

In Suzhou, Julian Environmental Protection has applied its synergistic governance of waste gas, waste liquid and solid wastes into pollution governance of industrial park, transforming enterprise's environmental protection investment from cost-oriented mode into benefit-oriented mode.

## 巨联（吉安）产业园

在江西吉安，巨联环保每年把从江西全境收集而来的18万吨废有机溶剂重新转化为可供使用的优质化工原料，让废料重新焕发价值。

### Julian (Jian) Industrial Park

In Ji'an, Jiangxi Province, Julian Environmental Protection could transform 180,000 t waste organic solvents collected from the whole Jiangxi Province into high-quality chemical raw materials every year to realize recycling.

## 巨联新材料产业园

以废有机溶剂提纯所得溶剂作为树脂生产原料，向园内工业企业提供高质量具备价值竞争力的树脂材料。

### Julian New Material Industrial Park

Provide industrial enterprises in the park with high-quality resin materials at a competitive price, which is made of solvent obtained by purifying waste organic solvent.

## Recovery of Liquid Waste

# 废有机溶剂 循环再利用

巨联在江苏苏州和江西吉安建设有机废液利用中心，主要用于对企业生产及有机废气治理过程中产生的有机废液进行加工提纯，处置利用能力近42万吨/年。

目前，巨联的有机溶剂（HW06）产品包括 DMF（N,N-二甲基甲酰胺）、DMAC（N,N-二甲基乙酰胺）、NMP（N-甲基吡咯烷酮）等。

Julian has established organic waste liquid utilization centers in Suzhou, Jiangsu and Ji'an, Jiangxi, which are mainly used to process and purify organic waste liquids produced during the production and organic waste gas treatment process of enterprises, with the processing capacity of nearly 450,000 tons per year.

At present, Julian's organic solvent (HW06) products include DMF (N, N-dimethylformamide), DMAC (N,N-dimethylacetamide), NMP (N-methylpyrrolidone) and so on.

### 再生溶剂种类

DMF（N,N-二甲基甲酰胺）

DMAC（N,N-二甲基乙酰胺）

NMP（N-甲基吡咯烷酮）

## NEW RESIN MATERIAL

# 树脂新材料

江西巨联新材料有限公司是巨联环保全资子公司，致力于树脂新材料的研发与生产，是江西省重点项目。

作为江西省重点项目，巨联新材料引进国际先进的生产设备，核心团队拥有20年以上的产品开发和生产管理经验，拥有聚氨酯树脂及相关产能18万吨。

As a wholly-owned subsidiary of Julian Environmental Protection Co., LTD., Jiangxi Julian Advanced Materials Co., Ltd. is committed to R&D and production of new resin materials, is a key project in Jiangxi Province.

To address the key project of Jiangxi Province, Julian New Material has introduced the world's latest production equipment. Its core team has over 20 years of experience in product development, and production management. The company could satisfy the production capacity of 180,000 t polyurethane resins and relevant products.

## Activated Carbon Regeneration 活性炭再生

活性炭业务是巨联循环产业链的重要组成部分。我们向客户提供优质活性炭的同时，通过配套的废活性炭处置设施，为客户提供废活性炭再生利用服务，有效帮助客户降低生产运营成本。

巨联位于苏州的活性炭再生工厂，设计处理规模 30000 吨 / 年，处置类别涵盖 12 大类危险废物中的废吸附剂和废过滤介质，以及一般固废活性炭，基本覆盖了所有常见来源的废活性炭。再生后的活性炭完全能够满足客户原有的应用需求。

Activated carbon business is an important part of Julian recycling industry chain. While providing customers with high-quality activated carbon, we provide customers with waste activated carbon recycling services through supporting waste activated carbon disposal facilities, so as to effectively help customers reduce production and operation costs.

Julian's activated carbon regeneration plant in Suzhou has a design treatment capacity of 30000 tons / year. The disposal category covers waste adsorbents and waste filter media in 12 categories of hazardous wastes, as well as general solid waste activated carbon, basically covering waste activated carbon from all common sources. The regenerated activated carbon can fully meet the original application needs of customers.

2万吨 / 年危废活性炭  
1万吨 / 年一般固废活性炭

## Hazardous Waste Incineration 危废焚烧

巨联位于江苏吴江的危废焚烧基地，设计处理规模为 10000 吨 / 年，能够处理国家危险废弃物目录上 12 大类的不同工业废弃物，并提供包装、转运、运输、分析等服务。焚烧过程中产生的蒸汽回用于有机废液利用中心，实现资源的循环利用。

Julian is located in the hazardous waste incineration base in Wujiang, Jiangsu Province, with a design treatment capacity of 10000 tons / year. It can treat 12 categories of different industrial wastes in the national catalogue of hazardous wastes, and provide packaging, transportation, transportation, analysis and other services. The steam generated in the incineration process is reused in the organic waste liquid utilization center to realize the recycling of resources.

# OUTE ENVIRONMENTAL 欧特环境

## 公司简介

欧特环境致力于成为企业在危废处置方面的最佳合作伙伴，为企业危险废物管理提供安全、可靠、高效的整体解决方案。

我们以客户需求为导向，根据废弃物特性，为客户定制经济高效的处置方案，通过协同平台的建设降低产废企业的危废运营成本，并确保过程的合规、便捷，让客户放心托付。

我们也为客户提供全面的危废管理培训和贴心的个性化服务，包括政策指导、问题诊断、管理优化和备案咨询，使我们的客户能够在各自业务领域的危废管理中提高绩效。

欧特关注小微企业的危废管理活动。针对单个企业产废量小、种类杂，难以覆盖全面规范管理的问题，我们将提供全方位的管家式服务支持。

## 服务理念 SERVICE PHILOSOPHY

- “服务和沟通”是公司建立的基础
- “培养客户的规范意识”是公司服务的宗旨
- 欧特将成为客户值得信赖的环保管家
- 为客户的危险废物处置寻找最经济、最安全、最环保的处置方案
- 为小微客户的危废管理提供服务媒介

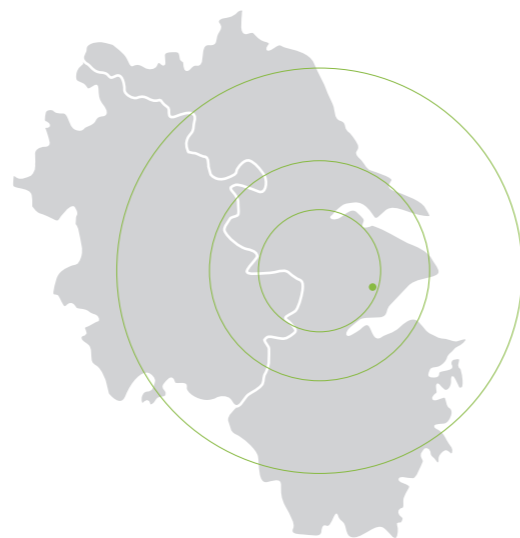

## Company Overview

Ote Environmental is committed to becoming the best partner for enterprises in hazardous waste disposal, providing enterprises with safe, reliable and efficient overall solutions for hazardous waste management.

Guided by customer needs, we customize cost-effective disposal solutions for customers according to the characteristics of waste. Through the construction of collaborative platforms, we can reduce the operation cost of hazardous waste for waste production enterprises, and ensure the compliance and convenience of the process, so that customers can trust them.

We also provide comprehensive waste management training and personalized services, including policy guidance, problem diagnosis, management optimization and filing consultation, so that our customers can improve the performance of hazardous waste management in their respective business areas.

Oute focuses on the hazardous waste management activities of small and micro enterprises. In view of the small amount of waste produced by a single enterprise, various types, it is difficult to cover the problem of comprehensive standardized management, we will provide a full range of butler service support.

## 业务范围 BUSINESS SCOPE

序号	服务类别	服务项目	涉及环节
危废管理	服务性指导	危废管理开户准备资料	对接资料准备及管理（或指导）系统操作
		指导填写年度计划	
		每月月初协助填报月台账	
	服务性指导	协助规范危废仓库	对标准化管理进行培训指导
		指导危废台账建立	
	服务性指导	危废组织清运规范培训	符合规范化要求进行流程指导
指导危废应急演练、协助制作演练材料			
服务性指导	年底规范模拟评分	模拟环保检查，提出整改建议	
	定期组织回访		
危废转移服务	危废运输	危废转移运输服务	落实客户满足危废转移条件，协调运输公司和接收单位
附加业务	综合化培训	危废管理开户准备资料	可邀请专家进行集中进行培训
	危废标识	指导填写年度计划	铝制危废公示牌制作
	危废仓库	每月月初协助填报月台账	整套危废仓库

致力于  
**物流安全**

Transportation  
of Dangerous Goods  
**危险品运输**

苏州巨联运输有限公司成立于 2013 年是苏市危险货物运输行业协会会长单位。巨联运输主要为巨联环保提供有机溶剂、树脂及危险废物运输服务，每年进出货 50 万吨以上。

Suzhou Julian Transportation Co., LTD., founded in 2013, is the president of the Suzhou Dangerous Goods Transport Industry Association. Julian Transport mainly provides organic solvents, resins and hazardous waste transport services for Julian environmental Protection, with more than 500,000 tons of goods entering and leaving each year.
